If you don't find the size or type binding mechanism you are looking for listed in this price list, let us know your needs. We keep a large stock of many types of ring mechanisms on hand that we don't have room to list. If we have or can get the necessary hardware, making the sheet size you require presents no problem.

RESTAURANT GUEST CHECK HOLDERS — 2 book system

Use same schedule as that for DOUBLE BOOK COVERS, using price for size of larger book. These are made on order. Send sample of both books so they can be made correctly.

STAMPING:

We are equipped to do production stamping as outlined in our catalog with 1/8" sharp faced Gothic Type. Charges for this service are as follows:

Die Set-up Charge \$20.00
Plus .06 for each holder stamped.
For Consecutive Serial Numbers:
Die Set-up Charge \$20.00
Plus .10 for each holder stamped.

HOLDERS FOR TAB CARDS AND TAB CARD SETS:

On pages 12 and 13 we show various applications for our holders in mark sensing operations, or in situations where manually written unit sets have as one of their parts a tab card. These were put in to show some of the applications. To help you locate them for pricing where they are standard holders or what to refer to we have included this section in our price list.

Page 12: Red block, top of page on left, use price of Snapak 3 1/4 x 8. Specify "Horizontal."

Pink block, top of page on right, use price of 3 1/4 x 8, specify "Wide Strap."

Black block, left side, use price of 3 1/4 x 8, add 2.00 per holder, specify the "Special Wide Bottom."

Black block, right side, this was a special holder a customer bought about 5,000 of. This would be priced the same as the Deep 3 1/4 x 8.

Red block, bottom left, this special holder is priced the same as the 8 1/2 x 8 size Snapak and is for bound tab card unit sets 3 1/4 x 8 1/4. Specify "4-part Snapak."

Pink block, bottom right. This is the regular 3 1/4 x 8 Style A Holder.

Page 13: Pink block, top of page on right. Price as Clipboard With Backing Piece 3 1/4 x 8 but specify "Horizontal."

Black block, middle right, Gas Station Credit Card Clipboard. These are made in several sizes. Prices quoted cover the most called for. Specify size.

SPECIAL CLIPS:

We have numerous clips that we use. In each case we use the one we think is best suited for the job. If a Jumbo Clip is needed, then we would add 1.30 per holder. In many cases our new 100 page 5" long clip will do away with the need for the Jumbo Clip. If you have a special problem, send the material you want the holder to be used with, tell us the procedure to be followed by the user, and we will quote you on the holder you need.

All of the types of holders listed, plus many special types are easily and quickly made to your specifications.

We keep a large stock of all standard sizes on hand for immediate shipment, and your order goes out the same day we receive it if at all possible. If we are out of stock, your order is generally held up only a matter of a couple of days. Special holders are generally shipped in 7-10 days from the time we get your order, depending upon the timing, it is often less than a week.

OTHER MATERIALS:

We work only in aluminum. However, we are in limited production on holders made in our regular styles using VYNALATE, a lamination of pure vinyl film and our regular high grade aluminum alloy 5052H32. At present this is available only in Danish Walnut, vinyl on one side and chromate conversion coating on the other giving the plain side a gold color, for use where a smooth writing surface is needed. Where no writing surface is needed, as in counter trays, etc., we also have a Leathergrain Green (greyish green) or Regimental Red (red with gold flecks). For the most part we do not keep any large stock of these on hand and make each order up as it comes in. Later on we expect to be in full production on these holders the same as our regular items. For the most part, these prices for holders made in Vynalate average 50% higher than our regular finish. Due to the extremely large orders we have to place with the mills and the long lead time needed to get it at all, we can only quote at present in the colors listed.

SAMPLES:

We do not send free samples. They will be sent only at regular prices.

CANCELLATIONS:

Orders for special holders may not be cancelled once we have started work on them. Any order for stock holders that has not been shipped may be cancelled at no charge; but if it has been shipped and comes back, it will be treated as a return and subject to the handling and restocking charge.

RETURNS:

Special Holders may not be returned if we made them to your specifications. Stock Holders must be unused and in resaleable condition when we get them back before we can issue credit. Pack them well and insure them to be safe.

WE CHARGE 10% OF THE LIST PRICE FOR HANDLING AND RESTOCKING.

We are sorry but we will not accept collect calls or telegrams from anyone at any time. If you request information by wire, we will have to send the wire collect. Wires are most unsatisfactory in all except the simplest cases. Either telephone or write an airmail letter. We answer all correspondence the same day we get it if at all possible.

We want to do business with you. We want to make money and we want you to make money. You will with our holders. Send us your order now. You'll be glad you did.

JUST RIGHT TO WRITE ON

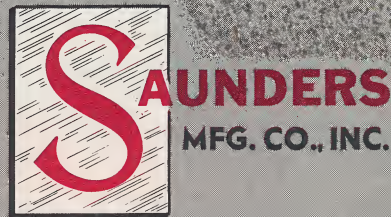

Prepare source documents in these holders. Use with mark-sense, OCR or any system requiring manual writing in car, truck, yard or factory. They save time and money. Make work easier.

**ALL WITH FULL LENGTH,
BUILT-IN, PIANO TYPE
HINGES**

Stocked in sizes to fit all standard forms. Also made in all special sizes and styles. Don't be satisfied with less than the best. Our holders cost less to begin with and outlast the imitations, or those made of other materials. Besides, they save time, and time is money. Save now — order now from your dealer.

Made of aluminum alloy because of aluminum's remarkable strength-to-weight ratio. Our holders are smaller, lighter, stronger. Easier to carry and use, they far surpass wood or plastic in strength, can't burn, melt in the sun shining through glass, as on a car seat. Won't rust or rot.

SHEET HOLDERS

**NEW AND
IMPROVED!**

PROFILE

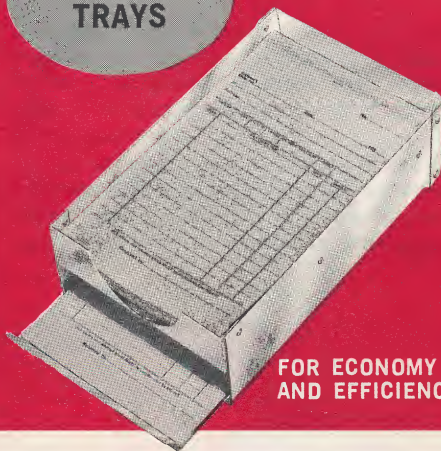

We think our other holders are better, but we keep selling more and more of these all the time. New extra strong method of forming increases strength and life of holder.

Made also with backing piece so as to get good copies.

Our sheet holders are the lightest, strongest and best anywhere!

COUNTER TRAYS

**FOR ECONOMY
AND EFFICIENCY**

Replace expensive registers and continuous forms with unit-sets and our counter trays. Keeps forms clean and neat. On your desk or counter for invoices and credit memos. On rubber feet to protect fine surfaces. Made with either one or two top sections and removable tray in bottom. Keeps completed forms safe and out of sight.

Tab card set users find these extremely handy as with forms for credit card use.

TRUCK DRIVER'S

LOG BOOK COVER

**FOR
TRUCK DRIVERS
— BUS DRIVERS**

Keeps I.C.C. Log Books clean and handy for inspection. For $5\frac{1}{2} \times 9\frac{1}{2}$ books, use this type or the Style A Holder. For the new $8\frac{1}{2} \times 11\frac{3}{4}$ size — use the Style A. Every driver that goes more than 40 miles from his terminal needs one of these Log Book Covers. This month's book on top — last month's underneath.

SNAPAK HOLDER

CLIPBOARD with BACKING PIECE

LIGHT! HANDY!
EASY TO USE!

Lift the cover and place beneath top set of forms for good copies. Forms are firmly held in heavy gauge steel clips, but you extract the top form easily with slight pressure on opening lever. Place completed forms in bottom storage for safe keeping. Equally handy for persons writing with left or right hands. Use with forms ruled either way.

Gives the most protection to important forms, from the weather or in a tool box. Storage space on left side under strap as shown here. Almost twenty years of successful use — everywhere. Now of increased importance to tab card users. This holder is made with sides reversed for use with forms ruled at right angles to binding side.

Used where separate storage is not needed.

The best value on the market.

Strong, light, inexpensive.

Handy everywhere. Our holders are used by the largest (and smallest) companies in the world.

Some use over 10,000 — how many do you need?
